

The top photograph provides a wide-angle view of a large industrial manufacturing facility. The space is filled with various pieces of machinery, workbenches, and storage units. Several workers are visible in the background, engaged in their tasks. The floor is a light green color, and the ceiling is high with exposed pipes and lighting fixtures. A red coiled hose hangs from the ceiling in the foreground.

The bottom photograph is a close-up shot of a male worker wearing a blue cap, safety glasses, and a dark blue work jacket. He is focused on his work, operating a lathe machine. The machine is a large, industrial-grade piece of equipment with a prominent green-painted section. The worker is using a tool to shape a piece of metal that is rotating on the lathe's bed. The background shows a well-lit workshop with various tools and equipment hanging on the walls.
